INTERNATIONAL PRODUCT GUIDE

JUPITER

SUPPORT FOR MUSIC EDUCATION AND PERFORMANCE

In 1979, the Jupiter brand of wind instruments was established by KHS Musical Instruments, Co., Ltd, one of the largest musical instrument producers in the world today. As a progressively minded company with global resources, KHS is dedicated to the selection of the finest materials available and maintains state-of-the-art, company owned manufacturing facilities in order to ensure superior quality, performance, and reliability for all our instruments.

Lead free solder

As a member of the global community, Jupiter is dedicated to the development of high quality wind instruments while maintaining responsible environmental practices. All our instruments are now made using lead-free soldering.

JUPITER WOODWINDS

Jupiter Band Instruments offer beginning and advancing players the best performing woodwind instruments in the school band instrument industry. From the high register piccolos to the lower pitched baritone saxophones, the entire woodwind category is filled with instruments made of the finest materials and the most precisely machined mechanisms to ensure that every instrument provided to the community are of the highest standards.

Assisted fingering key cups allow smaller hands to play with better hand positioning improving overall technique and playing comfort.

Only Jupiter provides a diverse flute selection for the smaller player, perfect for Suzuki or special applications. Jupiter's unique Assisted Fingering Key system features offset finger buttons to reduce the normal hand spread, making flute playing more comfortable.

The Perfect Fit

Assisted fingering key cups on the JFL700WD help the student to play more comfortably.

Freedom of Expression

The JFL700WE and JFL700WRE come standard with split E mechanism, trill keys, and C foot joint, expanding the student's musical range.

JFL700WRE

JFLH700WX

Grows With You

The Custom Extension Kit includes a barrel and a headjoint with a sterling silver riser that converts the JFL700WE and JFL700WRE into a true intermediate flute.

EXPRESSION & ELEGANCE

The **Jupiter 1100 Series Clarinet** possesses modern professional features that enhance the musical experience for players with maturing abilities. The sound, feel and look of the 1100 Series exceeds the expectations of an advanced level instrument.

JCL700

JCL750

JCL1100

The JCL1100S includes a French-style case with cover that offers both stylish appearance and lightweight protection.

The 700 Series is the new standard for the beginning clarinetist. Available in both Grenadilla Wood and ABS body materials, these instruments are built to produce a full, rich tone quality with exceptional intonation and playability.

JBC1000

The low Eb key on the JBC1000 is mounted on the body of the instrument, protecting the key mechanism and stabilizing proper key regulation.

Designed for Comfort
Specially contoured Eb/Bb and B/F# key mechanisms render a more comfortable feel making the transition from soprano clarinet to bass clarinet easier.

JKC-45PA

The Jupiter JBC1000 Series bass clarinet features ergonomically-fitted key mechanisms that facilitate easier fingering....especially for those that play both soprano and bass clarinet. A newly-crafted bell projects a dark, rich tonal quality with exceptional clarity and power. The addition of blue- steel springs gives the player enhanced key responsiveness and balanced action in all registers. For ease of assembly, a new bell tenon design provides a solid seal that is stable yet easy to disassemble. This instrument is offered in either a one-piece case or in a multi section case for easy carrying.

JUPITER BRASS

With a complete instrument offering from trumpets to tubas, Jupiter represents a full line of brasswinds covering the needs of the beginning student, the aspiring musician, or the discerning educator. All Jupiter brasswind instruments are manufactured using the finest quality materials available from around the globe. Select brass, rose brass, nickel, chrome, and stainless steel are assembled using the most exacting manufacturing standards to ensure a superior level of performance. Superior quality finishes are then applied, adding a protective shield and attractive luster that ensures years of lasting beauty.

Nickel silver outer slide tubes are remarkably durable and easy to operate

PACKAGED FOR PERFORMANCE

Jupiter Mouthpieces and Instrument Care accessories are designed and manufactured to meet the demands of today's students and educators.

Our mouthpieces are machined to exacting tolerances using the most commonly preferred specifications, and come in a variety of sizes for both woodwind and brasswind instruments. Swabs and polish cloths are made of the finest silk weave fabric that won't harm the finish of an instrument, yet clean and dry quickly and efficiently. Oils and lubricants are made in the United States to the highest performance standards and will ensure your instrument remains in optimum condition.
