## Symphonic Grand Series

While relatively new to the US, the block style pedal has become a favorite of symphonies and universities who require the precision of a piston/clutch system combined with the simplicity of a balanced style pedal. Majestic's Symphonic Grand series teams the comfortable block style pedal with both a foot and a hand fine tuner for optimal control and precision for any player.

Other features include a double caster under the pedal for smooth mobility, and full-length zippered, padded covers.

### SPECIAL FEATURE

The Symphonic Grand series block pedal offers the secure tuning of a pro clutch system.

## Cambered & Parabolic Bowls

**CAMBERED**

**PARABOLIC**

Majestic's popular Symphonic series features a rugged, cast aluminum suspension frame equipped with our easy to use balance style pedal, known for its accurate stability and distinctively light, smooth action, as well as a built-in third wheel under the pedal for easy, stable movement. With a wide selection of kettle options, the Symphonic series offers the flexibility to choose the ideal configuration for any performance setting. Symphonic Timpani also come complete with full-length zippered, padded covers.

"The Majestic cambered timpani provide the resonance and clarity at extreme dynamics that a professional player demands in their instrument."

Dr. Stephen Crawford

*\* Based on educator preference and feedback received from professional players, all Majestic copper timpani will be supplied with high-end, deep cambered kettles beginning in 2009. Limited numbers of parabolic copper timpani will be available while supplies last.*

The innovative Prophonic series combines the superior sound of a fully suspended cambered copper kettle on an elegant portable frame. For the first time, a truly professional quality of sound is available to those with limited storage space or needing to transport their timpani on a regular basis or in smaller vehicles.

Prophonic Series

Both Prophonic and Harmonic series timpani feature Majestic's patented folding-leg designs.

## Harmonic Series

As popular with traveling professionals as it is with schools, the Harmonic series offers performance, precision and stability like no other portable timpani. Majestic's exclusive FRP fiberglass kettles, with steel bearing hoop and standard Remo® Renaissance™ heads, ensure quality sound and response. The exclusive folding leg system is made of rugged cast aluminum for durability and stability. The legs and pedal structure lock securely in place during performance and fold to a surprisingly compact size.

Prophonic and Harmonic models come complete with zippered, padded drop covers. *Shown at right:* Optional carrying bags are available for transporting both Prophonic and Harmonic timpani models.
